MATERIAL SAFETY DATA SHEET

Kanberra- Gel

FICHE DE DONNEES DE SECURITE (1907/2006/CE)

Version: 1 Révision: 0 Date: 25/08/2025

1 - PRODUCT AND COMPANY IDENTIFICATION

1-1 Identification of the substance or preparation:

U FI code	Commercial name	
CU62-AJ27-S00H-9GAU	Kanberra gel	

1-2 Relevant identified uses of the substance or mixture

Use of the substance / preparation : General Public – Air car Product (PC2) – Do not ingest

1-3 Details of the supplier of the safety data sheet

1-3.1 Product Manufacturer

KANBERRA GROUP

LANCASTER

NY-14086

United State of America (USA)

1-3.2 Representative society for the MSDS establishment

2. HAZARDS IDENTIFICATION

2-1 Classification of the substance or mixture

Classification according to GHS	Skin Irritation- Category 2	
	Skin.Sens.1 : Skin Sensitive - Category 1	
	Aquatic Chronic 3: Hazardous to the aquatic environment,	
	chronic toxicity - Category 3	

2-2 Labelling elements

Labelling according GHS

Pictogram

Signal words	WARNING
Hazard statements	H315 : Causes skin irritation.
mazaru statements	H317: May cause an allergic skin reaction
	H412: Harmful to aquatic life with long lasting effects.
Precautionary	P101: If medical advice is needed, have product container or label at hand
statements	P102 : Keep out of reach of children
	P103 : Read label before use.
	P261: Avoid breathing dust/fume/gas/mist/vapours/spray.
	P264: Wash hands thoroughly after handling
	P272 : Contaminated work clothing should not be allowed out of the workplace.

	P273 : Avoid release to the environment.
	P280 : Wear protective gloves/protective clothing/eye protection/face protection.
	P302+P352: IF ON SKIN: Wash with plenty of soap and water.
	P305+P351+P337: IF IN EYES: Rinse cautiously with water for several minutes.
	Remove contact lenses, if present and easy to do. Continue rinsing.
	P332+P313: If skin irritation occurs: Get medical advice/attention.
	P333+P313: If skin irritation or rash occurs: Get medical advice/attention.
	P321 : Specific treatment (see on this label).
	P362+P364: Take off contaminated clothing and wash it before reuse.
	P501 : Dispose of contents/container to a collector for this purpose.
Additional Terms	EUH208 : Contains : Tea tree oil, Leptospermum petersonii ext. May produce an allergic reaction
Additional Terms	

2-3 Other hazards

Emergency Overview		
Inhalation	Medium	
Ingestion	Medium	
Skin contact	Medium	
Eye contact	Medium	
Potential Health Effect		
Inhalation	No adverse effects due to inhalation are expected.	
Ingestion	May be harmful if swallowed in large quantities.	
Skin Contact	May cause skin irritation	
Eye Contact	May Causes eye irritation

4- FIRST AID

4-1 Description of first aid

Skin contact	Remove contaminated clothing. Wash with plenty of water (or water and soap). If irritation persists or you see any damage, consult a doctor.
Eye contact	Rinse immediately with plenty of water holding the eyelids apart. Consult a physician if irritation persists. For contact lens wearers: Rinse immediately with plenty of water. Lenses might fall during flushing. If this is not the case, remove if they can be easily removed. Do not give them and do not return lenses after the accident without medical advice.
Ingestion	If the person is conscious, rinse mouth with water. DO NOT induce vomiting unless directed by medical manager. Consult a doctor immediately.
Excessive inhalation	Place the subject cool. If symptoms occur, consult a doctor. If unconscious, place in recovery position and get medical attention immediately.

4-2 Main symptoms and effects, both acute and delayed

For more details on the impact in terms of health and symptoms, refer to Section 11.

BIOTECHNATURE SARL

540 Blvd de l'Europe 83500 La Seyne sur Mer FRANCE

MATERIAL SAFETY DATA SHEET

Kanberra-Gel

FICHE DE DONNEES DE SECURITE (1907/2006/CE)

Version : 1 Révision : 0 Date : 25/08/2025

4-3 Indications of any immediate medical attention and special treatment needed

In case of doubt or if symptoms persist, consult a doctor. Never give anything by mouth to an unconscious person. It is recommended that those who provide first aid have personal protective equipment. No attempt should be made in the absence suitable training.

5 - FIGHTING MEASURES FIRE

5-1 Extinguishing Media

Extinguishing Media	Carbon dioxide extinguishers or powder, foam extinguishers.	
Unsuitable for safety reasons means	Direct stream of water	
Protection against fire	Do not enter fire area without a proper protective equipment,	
	including respiratory protective equipment.	
Other Information	No smoking	

5-2 Hazards arising from the specific substance or mixture

Possible production of toxic fumes.

5-3 Advice for firefighters

Avoid breathing vapors and smoke released. Use a mask if necessary. Do not attack the fire with water: water instead of stifling tends to fuel the fire some products contained in the perfume have the ability to float on water. The spread of fire is then accelerated. Cool closed containers exposed to the heat of the fire by spraying water because the pressure can increase at high temperature.

6 - MEASURES ACCIDENTAL RELEASE

Precautions for environmental protection	Avoid contamination of drains, surface waters and groundwater. In case of environmental pollution (soil, pipe, sewer, surface water or ground water), notify the competent authorities.
Method for cleaning / collecting	Large spillages should be contained with absorbent material, sand
	or inert powder, which will then be scanned and destroyed according to regulations.

7 - HANDLING AND STORAGE

Handling	Avoid contact with product. Do not ingest the product. Keep away
	from food and beverages. Do not smoke near. Do not breathe
	vapors plenty warm.

MATERIAL SAFETY DATA SHEET

Kanberra- Gel

FICHE DE DONNEES DE SECURITE (1907/2006/CE)

Version: 1 Révision: 0 Date: 25/08/2025

Storage	Store in closed original containers away from heat sources and avoiding too large temperature differences.
Type of materials used for	Comply with the regulations in force
packaging	

8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

General protective measures	Protective work clothing
Protection of hands	Protective gloves (EN 374-1) chemical resistant. Wash hands
	before els poses and immediately after handling the product.
Eye protection	Goggles (norme EN166)

Use personal protective equipment according to Directive 89/686/EEC for intensive exposure.

9 - PHYSICAL AND CHEMICAL PROPERTIES

Aspect	Gel
Color	Green to blue green
Odor	Tea tree oil
pH	5-6
Melting point	NA
Ebulution point or range	100°C
Flashpoint	>60°C
Evaporation rate	NA
Inflammability	NA
Vapor pressure	2322 Pa
Relative density	1.02
Solubility	In water
Partition coefficient	NA
Auto ignition temperature	NA
Decomposition temperature	NA
Explosive properties	NA
Oxidizing properties	NA

10 - STABILITY AND REACTIVITY

10-1 Reactivity

No dangerous reaction known under normal conditions of use.

10-2 Chemical stability

No significant change under normal storage conditions.

10-3 Possibility of hazardous reactions

None according to our knowledge under normal conditions of use.

10-4 Conditions to be avoided

Prolonged or excessive heat or exposure to air and can cause a dangerous decomposition and oxidation or substance.

10-5 Incompatible materials

Strong acids and oxidizing agents.

10-6 Hazardous decomposition products

No known hazardous decomposition products

11 - TOXICOLOGICAL INFORMATION

Acute oral toxicity	Tea Tree Oil – DL50 Oral 1100mg/kg
	Leptospermum petersonii, Ext – DL 50 oral >2000mg/kg
Acute dermal toxicity	Tea Tree Oil – DL50 Cutanée >2000mg/kg
	Leptospermum petersonii, Ext – DL 50 cutanée
	>2000mg/kg.
Skin corrosion/skin irritation	No data on the mixture.
Eye corrosion/ irritation	No data on the mixture.
Respiratory sensitization or cutaneous	No data on the mixture.
sensitization	
Germ cell mutagenicity	No data on the mixture.
Carcinogenicity	No data on the mixture.
Reproductive toxicity	No data on the mixture.
Specific toxicity for certain target single	No data on the mixture.
exposure	
Specific toxicity for certain target repeated	No data on the mixture.
exposure	
Aspiration hazard	No data on the mixture.
Other information	No data on the mixture.

12 - INFORMATIONS ÉCOLOGIQUES

Toxicity	Tea Tree Oil – CL50 (Poisson) 1-10 mg/L (96h) Tea Tree Oil – CE50 (Crustacé) 1-10 mg/L
	Tea Tree Oil – CE50 (Algue) 1-10 mg/L
	Leptospermum petersonii, Ext – CL50 (Poisson) 10-100 mg/L (96h)
	Leptospermum petersonii, Ext – CE50 (Crustacé) 1-10
	mg/L
	Leptospermum petersonii, Ext – CE50 (Algue) 1-10 mg/L
Persistance	No data on the mixture.
Degradability	No data on the mixture.
Bioaccumulation	No data on the mixture.
Mobility in soil	No data on the mixture.
Evaluations PBT and vPvB	No data on the mixture.
Other information	No data on the mixture.

13 - DISPOSAL CONSIDERATIONS

Waste	Comply with the regulations in force locally
Local regulations	Comply with the regulations in force
Contaminated packaging	Comply with the regulations in force

14 - TRANSPORT INFORMATION

<u>Further Information</u>: This product is not regarded as dangerous goods according to the national and international regulations on the transport of dangerous goods.

15 - REGULATORY INFORMATION

15.1 Regulations / Legislation specific for the substance or mixture safety, health and environment None

15.2 Assessment of Chemical Safety

This assessment is not required

16 – OTHER INFORMATIONS

The information contained in this data sheet are given in good faith and are based on our present knowledge. This sheet is intended to describe our product regarding possible safety measures.

The information is , however , given without warranty or insurance feature .

The user's attention is drawn to the possible risks incurred when the product is used for purposes other than those for which it was designed. It is the responsibility of the user during handling, storage and implementation of the product, refer to legislative, regulatory and administrative in force concerning the protection of workers, the public and the environment. The product should not be used for other purposes than those specified under section 1 without first obtaining written handling instructions.

The information in this sheet must be regarded as a description of the safety requirements relating to our product and not a guarantee of its properties thereof.

MSDS prepared by **ASTEKA (Ref 25/0120)** - Le Collet Route de Cheyran 04150 Simiane la Rotonde <u>www.asteka.fr</u> **Full text of Hazard phrases appearing in section 3:**

H226: Flammable liquid and vapour.

H302: Harmful if swallowed

H304: May be fatal if swallowed and enters airways.

H315: Causes skin irritation.

H317: May cause an allergic skin reaction **H319**: Causes serious eye irritation

H412: to aquatic life with long lasting effects.

This document contains 10 pages.
